## Important Notice

### COVID-19 Testing Price Change

The HRSA (Government COVID-19 coverage) program has officially ended. Most private health insurance companies are no longer paying for COVID-19 testing unless you have been exposed. With this change, if you would like to provide your insurance information, we would be happy to run it for you to verify coverage. However, if your insurance comes back with a denial, you will be charged for the test. If you do not wish to use your insurance, you may opt to PRE-PURCHASE your COVID-19 test at a discounted rate at one of our testing locations.

**Thank you for your understanding,  
Aspirar Medical Lab**

Your Results will NOT be released until we receive payment or insurance.
